A Head for Insurance. A Heart for Nonprofits.

The Nonprofits Insurance Alliance Group has worked for 29 years to support our communities through the effective and efficient work of charitable nonprofit organizations. The mission of the Group is to provide stable, reasonably priced insurance coverage for 501(c)(3) nonprofits and to assist them in managing their risk through providing practical risk management tools.

All companies in the Group are 501(c)(3) tax-exempt, public benefit nonprofits and are governed by boards of directors elected annually by the nonprofits they insure. Every dollar used in our operations is derived from a 501(c)(3) public benefit nonprofit organization. We work hard to help our member nonprofits avoid accident and injury to clients and members of the public. When our best efforts fail, we endeavor to fairly and responsibly compensate victims, all the while being a good steward of nonprofits' scarce resources.

The companies that make up the Group include:

- **Nonprofits Insurance Alliance of California (NIAC)**
Organized as a risk pool under California Corporations Code, Section 5005.1, NIAC is also a Charitable Risk Pool under Federal tax law. Provides liability coverage to nonprofits in California.
- **Alliance of Nonprofits for Insurance, Risk Retention Group (ANI)**
ANI is Risk Retention Group, licensed as a Vermont Captive Insurance Company. ANI is also a Charitable Risk Pool under Federal tax law. Provides liability insurance to nonprofits with operations outside of California.
- **National Alliance of Nonprofits for Insurance (NANI)**
Provides property reinsurance.
- **Alliance Member Services (AMS)**
Supporting organization serving the other companies in the Group as well as our partner programs.

All companies in the Group are rated A (Excellent) VIII by A.M. Best.

The Nonprofits Insurance Alliance Group currently insures more than 18,000 nonprofits.
